

## AQUALOGY CARRIES OUT A HYDRAULIC INFRASTRUCTURE MASTER PLAN IN PERU

Aqualogy has been awarded a contract to carry out a hydraulic infrastructure master plan for the Chinese mining company Jinzhao Mining Corporation in the region of Arequipa (Peru). The aim is to build a desalination plant, an 18 km long pressure pipe and a WWTP in this region.

The hydraulic plan is intended to identify the water demand in the mining camp and the supply sources available, mainly focused on seawater desalination, to analyze the engineering of the infrastructures necessary for the supply and the wastewater treatment, and also the legal and environmental requirements applicable.
